

TLC Pediatrics of Frisco
Seth D. Kaplan, M.D.
Leslie Katz Lestz, M.D.

Patient Portal

Our patient portal is HIPAA secure; meaning your families' personal health information remains confidential. The portal allows you to view your child's diagnosis history, lab history, medication history, medical allergies and immunizations. You can also print the immunization history from your own computer to submit for school, camps and sports teams. The portal can be easily accessed using your smart phone or any computer with Internet Explorer 9 or greater, Safari, Fire Fox or Google Chrome as the web browser.

A member of our staff will collect your email address, activate your account and link your children to your user name. You will receive an email from No-reply@tlc.... Check your spam as depending on how your email filter is set it may not go directly to your inbox. Follow the link provided in the email to change your password and view your children's records. You will need to access this link within 7 days or it expires.

The direct portal web-address is mykidschart.com/tlc

Please contact our office if you have any questions or difficulties using the patient portal.

Thank You,

Physicians and Staff of TLC Pediatrics of Frisco
